Cyber Analyst (Fusion Poly Graduate Programme)

[Apply now »](#)

Date: 17 Dec 2024

Location: Singapore, Singapore

Company: Singtel Group

Will you be part of the extraordinary?

NCS's mission is to bring people together and harness technology to advance communities. As a leading technology services firm, operating across Asia Pacific in over 20 cities, our diverse 12,000-strong workforce delivers large-scale, mission-critical projects for governments and enterprises locally and regionally. Our NEXT capabilities of digital, cloud, platforms as well as our core offerings in Applications, Infrastructure, Engineering, and Cyber Security provide end-to-end technology solutions and services to our clients.

Your role is only the beginning

At NCS, we pride ourselves on empowering our people and talent to their fullest potential. Learning together in our NCS DOJO, we have comprehensive, built-in training and industry standard qualifications that will allow you to up-skill and re-skill as we grow together.

Our **Fusion Work-Study Degree Programme** will enable you to kickstart and advance your professional career while attaining a Bachelor's Degree from a recognised University. To broaden your perspectives, we also have multiple 'playgrounds' that work as Project Teams, Client Tribes, Strategy Groups and Centres-of-Excellence based in Singapore, Shenzhen and Melbourne.

And if there are any ideas or projects that interest you, we're always listening and ready to play.

As part of the programme, you will gain valuable hands-on experience in one of the following domains:

Endpoint & Network Security

- Firewall Deployment & Management
- Endpoint Security (e.g. Anti-virus)
- Network security (e.g. IPS/IDS, proxy)
- Vulnerability Assessment

Threat Monitoring

- SIEM / SOC
- Database Activities Monitoring
- Endpoint Detect and Response
- Automation & Orchestration (e.g. SOAR)

Access Management

- Privileged Access & Identity Management
- Private Key Infrastructure
- Two-Factor Authentication

What will you do?

- Support project team members in requirement gathering and solution design
- Support in project deliverables like Work Breakdown Structure (WBS), implementation plan, etc.
- Support in the configuration, installation, and integration of security solutions
- Support in the testing and remediation of vulnerabilities (e.g. firmware/software upgrades or minor fixes /patches)
- Support in problem troubleshooting and resolution
- Support in knowledge transfer and handover of implemented security solution to the client and/or operations team
- Support in the production of project documentations for technical design, test cases etc.
- Work closely with security governance and audit team to ensure the security services compliance with security standards or industry best practices

The ideal candidate should possess:

- Positive attitude, eagerness to learn, good team player and highly collaborative
- Diploma in Cyber Security or other related disciplines
- Diploma graduate with less than two years of relevant working experience

Explore exciting career opportunities with NCS and kick-start your journey towards success. As a fresh graduate, you will have access to our Fusion Graduate Programme, which offers professional coaching, comprehensive training, and clear career tracks to help you achieve your full potential. Visit our website at ncs.co/opportunities and check out our LinkedIn Career site to discover how you can be part of the extraordinary today. Join our team and experience #ncslife today!

We treat all applications with the utmost confidentiality. While we appreciate the interest in this role, only shortlisted candidates will be contacted given the high volume of applicants.

Please note that applications for 2024 are now closed. However, we encourage you to stay tuned for the next application cycle.
